Val,

To the best of my knowledge, NO work was accomplished, because the PRPs had exhausted their "willingness" to perform additional work / incur costs. This is why the ADEQ referred this site to EPA for inclusion on the NPL. This is the "State Pick" or "Silver Bullet" ..

Philip,

I've been reviewing all the files on the share drive concerning Cedar Chemical. I have a quick question.

1. Do you know if the work proposed by ADEQ in their Remedial Action Decision Document (RADD) issued on June 2010 was completed by the RP's? Is so, where can I find the completion reports / data?

Sincerely,

Valmichael Leos
